

# FORMULARIO DE POSTULACIÓN PREMIO BCG DE APEC 2025

**Select the BCG Award category you are applying for:**

- |       |  |
|-------|--|
| Women | <a href="#">Document proving that a woman holds at least 50% of the capital or voting power.</a>   |
| Youth | <a href="#">Document proving that a person under 30 years of age as of December 31, 2025, holds at least 50% of the capital or voting power.</a> |
| MSMEs | <a href="#">Document proving that the company has fewer than 500 employees.</a>  |

## SECTION 1 OF 5 – General Information

### Organisation Information

**Name of organisation**

**Business start date (SII)**

**RUT**

**Address**

**Document on the start of activities (SII)**

**Certificate from the Commercial Registry of the Registrar of Real Estate  
that proves the validity of the company**

### Representative Information

**First and last name**

**Position**

**Phone**

**Email**

**Identity document or passport of the company representative**

## SECTION 2 OF 5 – Nomination statement

**Please describe how the nominee represents a replicable BCG business model/approach/activity(ies). (up to 400 words)**

**Please include 1-3 ‘tweets’ that could be published on ‘X’ summarising the nominee’s work (280 characters, spaces included).**

**Tweet 1**

**Tweet 2**

**Tweet 3**

## SECTION 3 DE 5 - Impact and Contributions to the Bangkok Goals on BCG Economy

**Supporting global efforts to comprehensively address all environmental challenges, including climate change, extreme weather and natural disasters, for a sustainable planet, particularly in terms of climate mitigation, adaptation and resilience by:**

- Supporting finance and investments in sustainability and climate action, including disaster risk finance insurance, and, if appropriate, carbon pricing and non-pricing mechanisms and international carbon credit markets, as well as exploring options to support the alignment of financial flows towards a greener and cleaner global economy, for example taxonomies and other alignment approaches.
- Promoting research, development and deployment of cost-effective low and zero emissions technologies, acknowledging that there are a variety of technologies and approaches available;
- Promoting sustainable, resilient, productive, and inclusive food systems and agricultural practices, achieving food security and nutrition, reducing food loss and waste, including through encouraging environmentally-friendly policies and minimising environmentally-harmful ones, conserving agrobiodiversity, and enhancing the use of agricultural biotechnology, digitalisation and other innovative approaches;
- Recalling our commitment to rationalise and phase out inefficient fossil fuel subsidies that encourage wasteful consumption while recognising the importance of providing those in need with essential energy services, and, to reach this goal, continuing efforts in an accelerated manner;
- Advancing the transition to clean and low-carbon energy through various pathways reflecting the different circumstances in each economy, strengthening energy resilience, promoting energy security, and ensuring affordable and reliable energy access, including by fostering technical collaboration and exchange of best practices and experiences. We acknowledge the importance of stable energy markets and clean energy transitions. Noting the progress made to date, APEC economies are discussing goals for further strengthening the region's capacity to adopt renewable energy and other clean and low-emissions energy technologies;
- Ensuring diversity and inclusion in our collective efforts to address climate change;
- Strengthening cooperation to develop and exchange policies and best practices, and promote capacity building and awareness-raising programmes that address all environmental and climate challenges, and support sustainable growth;
- Enhancing adaptive capacity, strengthening resilience and reducing vulnerability to the adverse effects of climate change and associated risks, including through mainstreaming adaptation measures into policies, strategies and planning, as well as disaster and emergency preparedness and management;
- Contributing practical, ambitious and concrete initiatives to transition to a climate-resilient future global economy which align with global efforts, such as the achievement of the 2030 Agenda for Sustainable Development and the goals of the Paris Agreement, as well as appreciating and supporting APEC members' respective net zero / carbon neutrality commitments, recognising the urgent need to collectively address climate

change and reduce greenhouse gas emissions and the need to provide international support including capacity building, technological and financial support, which are key enablers in this regard;

**Progressing sustainable and inclusive trade and investment and ensuring that they are mutually supportive with our environmental policies by:**

- Strengthening the roles of micro, small, and medium enterprises (MSMEs), including encouraging the formulation of an updated APEC Strategy for Green, Sustainable and Innovative MSMEs, building capabilities for MSMEs in sustainability practices such as the ESG and BCG approaches, and collaborating to improve opportunities for MSMEs to be competitive, specialised, innovative and expand into international markets.
- Advancing gender equality and economic integration, inclusion and empowerment of women;
- Advancing concrete initiatives on responsible business conduct, environment, social and governance (ESG) industry practices, for example through the development of sustainable tourism, manufacturing, agriculture, transport and logistics sectors, as well as the green and low-carbon digital and technology sectors;
- Advancing work on the facilitation of trade in environmental goods and services, building on discussion about the APEC List of Environmental Goods and the Reference List of Environmental and Environmentally Related Services and further discussing the impact of non-tariff measures on trade in environmental goods;
- Intensifying work that enhances stability, resilience and sustainability of supply chains, as well as improves connectivity, including through the implementation of the APEC Connectivity Blueprint and advancing cooperation and sharing best practices on green public procurement;

**Promoting environmental conservation, sustainable use and management of natural resources, as well as halting and reversing biodiversity loss by:**

- Striving to ensure diversity and inclusion to improve our efforts in maintaining, conserving, managing and protecting the environment and natural resources.
- Strengthening efforts to combat illegal logging and associated trade, stop the degradation of forest ecosystems, and promote trade and consumption in sustainably managed and legally harvested forest products;
- Continuing work to prevent and reduce marine debris and plastic pollution, including through the implementation of the APEC Roadmap on Marine Debris;
- Enhancing conservation and sustainable use and management of coastal and marine resources and ecosystems as well as sustainable fisheries and aquaculture, including preventing, combatting and working towards ending illegal, unreported, and unregulated (IUU) fishing and implementing the APEC Roadmap on Combatting IUU Fishing;

**Advancing resource efficiency and sustainable waste management towards zero waste by:**

- Increasing cooperation to advance circular economy approaches, including through promoting circular business models as well as exchange policies and best practices, and sustainable production and consumption patterns.

**Please provide additional information on the tangible impact of the nominee's work (including relevant data) in addition to the abovementioned contributions to the Bangkok Goals on BCG Economy (if applicable) -up to 300 words**

## SECTION 4 OF 5 – Other Awards/Achievements/Contributions received

**Mention any additional awards, achievements, or notable contributions, if applicable.**

## SECTION 5 OF 5 – Documents

**Brochure or document with general information about the company**

**Please provide two photos of the company representative, one of which should be waist-up and profile-style (not passport-style)**

**Three photos of the company's activities**
